Edoardo Vittori, PhD, CAIA

edov@me.com

Business Director and quantitative investment professional with 10 years of experience across systematic trading, derivatives, portfolio construction and risk management. PhD in Machine Learning and CAIA charterholder, translating quantitative research into live strategies and coordinating technical and governance stakeholders

Professional Experience

2026 - present

Business Director, Cross Asset Systematic Trading
Intesa Sanpaolo IMICIB, Milan

- Portfolio construction across internally built and externally sourced systematic strategies in FX, futures and QIS
- Scale live intraday systematic FX strategies toward production grade, monitoring performance attribution, drawdown, exposure and stress tests; present updates to senior management
- Coordinate technology, risk, compliance and middle-office stakeholders; co-supervise one PhD and three master's students

2022 - 2025

Vice President, AI Investments
Intesa Sanpaolo IMICIB, Milan

- Built systematic-trading capabilities from research to first live production strategy (2023)
- Researched machine-learning signals for intraday FX, futures and limit-order-book data

2018 - 2022

Associate, XVA Management
Intesa Sanpaolo IMICIB, Milan

- Conducted PhD research in reinforcement learning for trading, hedging and portfolio optimization while working full-time
- Completed rotations in quantitative investing and credit flow trading

Nov 2016 - 2018

Analyst, XVA Management
Banca IMI, Milan

- Priced derivatives XVAs and supported macro hedging of the XVA book with sales, trading, structuring and risk teams

Education and Credentials

2018 - 2022

PhD in Machine Learning
Politecnico di Milano

- Reinforcement learning, online planning and optimization applied to trading, execution, hedging and portfolios

2017 - 2018

Executive Master in Finance
SDA Bocconi, Milan

2012 - 2016

MSci Mathematics, First Class Honours
Imperial College London

Selected Leadership and External Engagement

- Sponsorship Chair, ICAIF 2026 (ACM International Conference on AI in Finance), Milan — organizing committee
- Main organizer of the ECAI 2025 AI-in-Finance workshop: program committee, sponsorship, panels
- Guest lecturer at HEC Paris FinTech Summer School (2025, 2026); talks at SDA Bocconi and Università Cattolica
