

Edoardo Vittori

EMAIL: edoardo.vittori@polimi.it

PROFESSIONAL EXPERIENCE

2016 - PRESENT	Intesa Sanpaolo CIB, Milan - Vice President, XVA Management Desk • Pricing the credit risk of derivatives and hedging the resulting hybrid portfolio • Working closely with sales, trading and structuring teams to create deals for corporate clients • Managing machine learning projects: generating trading signals, calibrating stochastic models • Job rotation 2020 - Epsilon SGR: Quantitative investing • Job rotation 2019 - Banca IMI: Credit flow trading
SUMMER 2016	SLJ Macropartners, London - Intern • Developed mean-reverting and momentum trading models • Conducted macroeconomic research
SUMMER 2015	AMS (Alpha Magnetic Spectrometer), CERN, Geneva - Intern • Analyzed data from AMS under the supervision of Nobel prize Samuel C. Ting • Monitored AMS parameters and coordinated with NASA to resolve a critical power shortage on the ISS
SUMMER 2013	INFN (Istituto Nazionale Fisica Nucleare), SHAO (Shanghai Astronomical Observatory) - Intern • Collaborated with scientists to track space debris with satellite laser ranging technologies • Contributed to initiate a research collaboration between SHAO and INFN • Analyzed the variations of gravitational red shift around the Earth with data from Galileo satellites

EDUCATION

2018 - PRESENT	Politecnico di Milano - Ph.D. Reinforcement Learning for Finance • Focus on Risk Averse Reinforcement Learning, Online Planning, Bandits, Online Convex Optimization • Application to Trading, Hedging, Portfolio Optimization
2017-2018	SDA Bocconi, Milan - Executive Master in Finance • Specialized in advanced financial topics with a focus on banking transformation and leadership • Received top grade in M&A and structured finance operation simulation • Runner-up at IMAGINE Hackathon for "Innovating the reinsurance business"
2012-2016	Imperial College London - MSci course in Mathematics, First • Obtained First in Master's thesis: <i>Computational Search for High Redshift Quasars</i> • Nominated Secretary of the Erasmus Society and External Relations Officer of the Italian Society • Selected for Microfinance Tanzania, Mash Foundation - Volunteer: advising local businesses
2014-2015	EPFL, Lausanne, Switzerland - Exchange year • Engaged in Harvard World MUN (Model United Nations) Debate, Seoul • Awarded the scholarship: Swiss-European Mobility Program • Appointed as member to form a startup through CTI Entrepreneurship Training Program

LANGUAGES

Bilingual in ITALIAN and ENGLISH Fluent in FRENCH

PROGRAMMING SKILLS

Python, VBA, MATLAB, R

TRAINING PROGRAMS

SUMMER 2020	Deep Learning Reinforcement Learning Summer School Montreal, Canada Engaged with and followed lectures from world-renown machine learning researchers
SUMMER 2015	Alpbach Summer School Alpbach, Austria Devised a mission proposal to measure gravitational waves: drafted an article, presented to a panel
SUMMER 2014	3DS (3 Day Startup) Queen Mary University, London, England Worked on the startup "GGbets:" surveyed customers, prepared a business model and pitched to judges
SUMMER 2009	NOLS (National Outdoor Leadership School) course Alaska Participated in Month-long survival course in the harsh Alaskan wilderness
